Travelling with Sky Angel

Life for June Liston is far from boring. June, aka Sky Angel spends countless hours flying the skies not only for human passengers, but to relocate CH cats to homes outside of their immediate area. If not for June, some of these little ones may not be in the loving homes they are in now. June recently flew a sweet partially blind CH cat named Nicki Minaj from Chicago to Seattle and into the arms of her new family. June is truly an angel to all that know her and all the CH cats that have had the opportunity to fly with her.

Featured Rescue Group

K9Kastle Corp
www.K9Kastle.petfinder.org

K9Kastle is a non-profit rescue group located in New York and continually steps up to the plate to pull CH cats that are risk of being PTS. Recently there has been a barrage of CH kittens listed on the NYC Urgent Cat page. Most have been pulled by K9Kastle. They are full to the brim with not just CH cats but all types of cats who are in urgent need of foster homes or adopters. If you are available to foster or want to donate to their group please contact

Tara at maddiek9@aol.com

Emily at mle65@hotmail.com

How can you Help?

Sign up on our

We have started a list of volunteers throughout the world to help rescue CH kitties. We need volunteers who can pull from shelters, foster, transport, help with costs, vet tech/veterinarians and people who can network CH cats in need. Please pass this along to your friends and family. You're contact information will be used only when a rescue cat comes up in your area. Remember, the more people we have signed up to help, the more CH cats will be saved.

Adoptable CH Cats

BOWIE The Colony, TX

Bowie came to us with his siblings and his mommy. When Bowie was allowed to explore the entire house outside his room, it became apparent that he

was a little wobbly, possibly with some kind of genetic neurological defect. But that never holds him back. He still pounces, runs, and hops into bed for bedtime. We don't even look for his funny walk anymore. He is who he is and he's a great kitten!

Email adoptions@kittysave.org

PIPPA Gig Harbor, WA

About 3 years. Black and white tuxedo. Very petite, darling loving personality. On a CH scale of 0-10, With 10 being severe, I'd say she is a 6 in mobility. But she is perfect with her litterbox.

Great with other cats. IBD is well- managed with venison diet. She's a gem!!! Contact Laura at Harbor Hope Car Rescue <https://www.facebook.com/groups/190017359962>

Check out all adoptable cats at <http://chcat.org/adoptable-cats/>

CHESTNUT Easton, Md

I know I know, I'm not a cat but I am CH! Chestnut is a sweet just under a year old shepherd mix. She was surrendered to us because her owner could not afford

to take her to the vet to find out why her back legs shake all the time. We have had her seen by a vet who let us know that she has cerebellar hypoplasia while she has been in our care she has also had 2 seizures, so the vet advised that we start her on Phenobarbital. Even with her medical condition it does not take her spirits down. Contact Ashley Marshall at 410-822-0107

CH Kitty Crusaders desperately needed for the barren regions of the U.S. Being a crusader can be as easy or as involved as you want! We need people who are willing to just spread the word about CH to local vets, shelters, and rescues, as well as people who are able to help with rescue, transport, and/or fostering of Urgent CH kitties in their area. The lives of many CH kitties have been saved through the crusaders who have already volunteered to help, but there are so many areas that have no help in sight or within hundreds of miles! Remember, we will only contact you if we really need your help!

HENNY New York NY

She is a beautiful 4 yr old cat with a condition call Cerebellar hypoplasia. She has no problem getting around. She may wobble or tumble occasionally but

it doesn't bother her. Henny, like some cats, can be very mouthy, like a teething puppy. She shouldn't be around small children or anyone who has conditions that love-bites would exacerbate. She's spayed, vaccinated and negative for felv and fiv.

CH Success Stories

Red Door and ARF volunteers “Jump into Action”

On September 30, Elise Murphy and her friend Toni from Red Door Animal Shelter set off on an hour's long journey from the heart of Chicago to a small town next to the Illinois/Iowa border. An urgent plea had come in to the group just days before...a houseful of cats had been abandoned and two had already starved to death. There were threats of shooting and killing the two CH cats, Jinx and Lilly.

Though Red Door was too full to take the cats in on such short notice, Elise and Toni immediately jumped to the rescue to drive out and pick up the cats. Through the amazing rescue network this group has formed, Ann Persenaire of ARF Illinois immediately offered safe rescue for the kitties until they could find an adoptive, forever home. On their way back into the city, Elise and Toni dropped the kitties off safely with Ann. If you are in the area and are interested in adopting, please contact Ann at [ARF](#).

Oreo finds a home

Kathy Yundt Plante and her daughter Cleary Dean Armstrong fell in love with a CH kitty at the “Just Animals Shelter”, in Mazon, IL. After waiting a day or so they were approved to adopt this beautiful little tuxedo girl they now call Oreo. Kathy took Oreo to visit the seniors where she works. Oreo then spent hours with her Kathy's daughter Cleary and friends who just could not seem to put her down. She loves playing with all her new toys but especially loves to chase things like crinkle toys and the laser light. She even used the litter box on her own

“Oreo is the most lovey cat I've ever had” said Kathy. “She resists change like a grumpy old man” Oreo has a cat and bunny friend that she plays with and a dog that she doesn't seem to like yet but will soon find out that the dog is a big baby. Kathy and her family are totally in love with Oreo and feel blessed to have her in their family.
